AREAS OF EXPERTISE

Personal Injury, Professional Negligence, International & Travel, Mediation, Arbitration

JUDICAL APPOINTMENTS

Arbitrator under the Motor Insurers' Bureau Untraced Drivers' Agreements since 2001 | Recorder since 2002

Richard is one of the most well-known and well-respected silks at the personal injury bar.

He is vastly experienced, having appeared in such seminal cases as *Wells v Wells*, *Masterman-Lister* and *Cain v Francis*.

He is instructed on behalf of both claimants and defendants and regularly acts for and against most major insurers, and in cases involving the Motor Insurers' Bureau.

He is a member of the Ogden Committee.

A significant percentage of his current practice is as a mediator. His expertise in the field and his pragmatic and friendly style appeal to all sides. That coupled with his judicial experience as both a Recorder and an Arbitrator means that he is able to provide significant help and guidance to the parties to resolve the issues between them.

Mediation

Richard is currently involved in more than 30 mediations a year. He specialises in evaluative mediations, giving each party a steer as to what a judge might think of its case. All the mediations are in the fields of personal injury or clinical negligence, or involve professional negligence claims arising out of those areas of practice. The vast majority of cases settle either on the day or shortly afterwards.
